REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-18 filed on 12/06/2004 have been carefully reconsidered in light of the specification and figures 6, 7 and 9 of the invention. The references of the record fail to teach or suggest a switch reluctance generator comprising a stator having a priming winding arranged to excite two or more of the stator poles during a start procedure, thereby to establish a voltage of pre-determined value on the DC link as required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
